

St. Albans Seeks Fund for Bridge

Application Is to Be
Filed With R. F. C.
By Solicitor

D. N. Mohler, city solicitor at St. Albans, is to go to Washington within the next few days to apply to the Reconstruction Finance corporation for a grant of \$385,000 which is to be used to construct a bridge over the Kanawha river at St. Albans.

The bridge would connect state highways Nos. 25 and 60.

The project would be self liquidating through tolls and would give em-

ployment to about 300 men for about a year.

Plans for such a bridge were made several years ago.

A hearing of any objections against the project from the standpoint of navigation is to be held at eleven o'clock next Monday morning at the

St. Albans city hall by United States engineers.

Persia spent nearly \$4,000,000 in railway construction in the last 12 months.

Higher gasoline prices are boosting the number of small cars in Belgium.
